Double Vision

Now your fireplace can be enjoyed from two rooms. With the unique Double Vision gas fire, the ambience of the fire can be experienced as a see-through fire from both rooms.

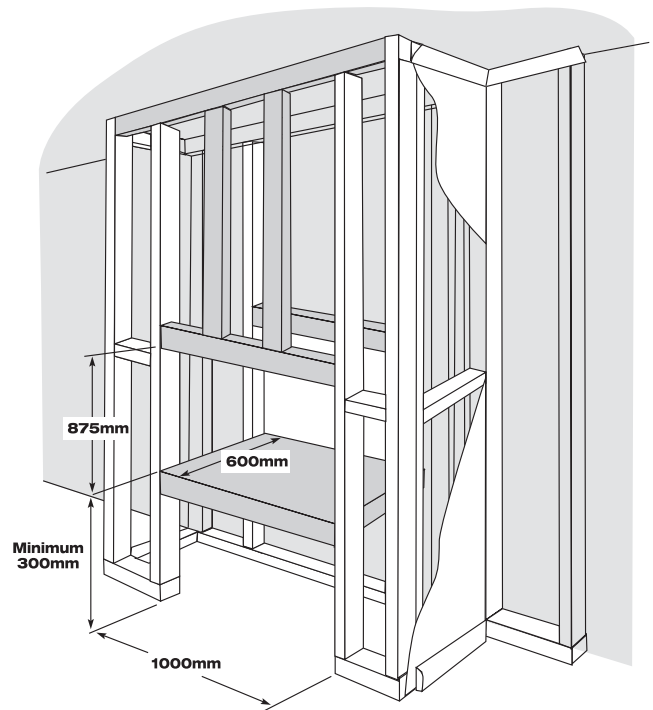

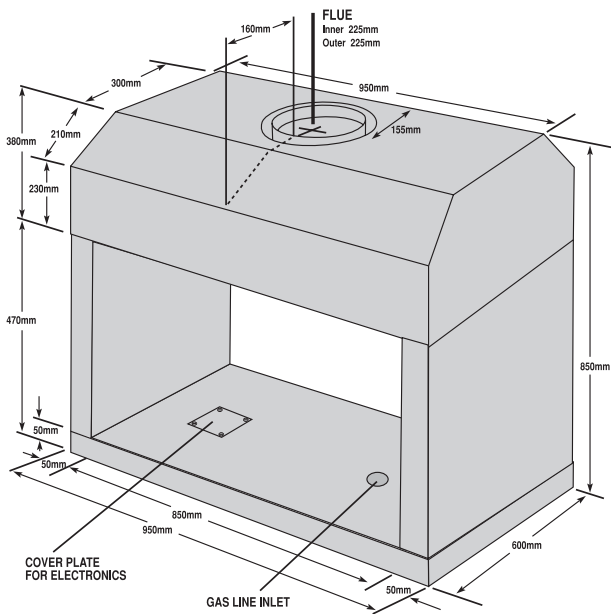

With its zero clearance firebox construction, a simple timber frame is all that is required to construct the focal point of the home.

A simple trim in either stainless steel or black, gives the unit a modern contemporary finish.

Product Specifications

- Millivolt ignition
- 52 mjh gas input
- Primarily a decorative appliance
- Stainless steel or black pedestal base and tray
- 3 or 4 sided trims
